Sprint 4

1. Add a Custom Tag:
- Given that I am a registered user, when I type into the field that requires a tag when creating a post, then I should be able to enter a custom tag.

2. Delete Post:
- Given that I am a registered user that created a post, answer, or comment, when clicking on the delete button, then the post, answer, or question should be deleted.

3. Comment on Answer:
- Given that I am a registered user, when clicking on reply, then I should be able to comment the answer to a question.

4. Admin Privileges:
- Given that I am an admin, when clicking on delete, then I should be able to delete any question, answer, or comment.

7. Viewing Answers:
- Given that I am a registered user, when viewing a question, then the answers should be sorted by vote.

8. Correct Answer:
- Given that I am a registered user that asked a question, when clicking on a the 'Mark as Correct' button, then I should be able to mark an answer on my post as correct.

9. Filter by Question:
- Given that I am a registered user, when I open the search bar and type something, then if the post exists, I should be able to see all related posts.
- Given that I am a registered user, when I open the search bar and type something, then if the post does not exist, I should see nothing.
